Brown Bag Lunch Series

Boundary Monitoring Using Compass and Ipad Johnson Acres, North Washington St, Norton Wednesday, October 28, 2015 11:00am-1:00pm

This is a demonstration of the Theodolite program for apple products. We can use it for rough delineation of boundaries (con com land/CRs). You may be able to follow along on another device.

- You will need to have Theodolite ver. 4.0.1 (by Hunter Technology and Research LLC) downloaded to your iPad or iPhone. It is \$3.99 at iTunes. This is the demo but you may be able to follow along with other devices.
- Or google Theodolite for your respective device and see what is available.
- You need a data plan through your phone/ iPad or you may need a hot spot for internet access.
- You may need a clear protractor and compass too

Date, lat/long and bearings are printed directly onto the photo.

There will be a board meeting from 10-11. Everyone is welcome to attend. RSVP at www.tinyurl.com/MSMCP10-28-15event
Please carpool if you can. House #106 N Washington St is the closest for those with GPS.
