Brown Bag Lunch Series

Sudbury River Management Issues

Canoe Landing Parking Lot

24 South Great Road, Lincoln

Wednesday, July 24, 2019

10:30 am - 1:30 pm

Join Lincoln Conservation Department Staff to get out on the Sudbury River and learn about management and permitting challenges and opportunities. These include recreational access, invasive aquatic plants, vista clearing, and more. We will paddle out into the Fairhaven Bay area of the river. Please bring your own kayaks and canoes and be sure to have life jackets and the usual river supplies like water, food, hats, and sunscreen etc. On the Google sign-up document (link is below) please indicate if you need to join someone in their canoe or get a loaner kayak and we will do our best to get everyone on the water.

Contact: Tom Gumbart, Conservation Director
781-259-2703 gumbartt@lincolntown.org

There are 2 adjacent parking lots on the north side of South Great Road (Route 117) immediately east of Lee's Bridge over the Sudbury River (the Lincoln-Concord Town Line). 24 South Great Road works in Google Maps but there is no street number at the lots.

Please carpool if you can.
